

Sardar Toheed: Trainer Profile

A Versatile Expert in Web Design and E-commerce Solutions

Sardar Toheed is a multifaceted professional with extensive expertise in web design, graphic design, and virtual assistance. With a strong educational background and a wealth of experience in various aspects of digital development, Sardar has become a sought-after specialist in his field. Graduating in 2016 from the Faculty of Arts, Sardar quickly established himself as a proficient web designer and developer. His skills span across multiple platforms, including WordPress, Shopify, and Magento, allowing him to create dynamic and visually appealing websites tailored to his clients' needs. His technical proficiency and creative flair make him an invaluable asset in the ever-evolving digital landscape.

Sardar's career took a significant leap during his tenure at Axon Share, a UK-based company where he worked for three years as a web store developer. In this role, he was responsible for designing and developing e-commerce websites that catered to the unique needs of the UK market. His ability to understand client requirements and translate them into functional, user-friendly web stores was instrumental in driving the company's online sales and enhancing customer experience. Sardar's meticulous attention to detail and commitment to delivering high-quality work earned him recognition and respect within the industry.

Following his successful stint at Axon Share, Sardar transitioned to the role of an Amazon Virtual Assistant (VA) for E-com Bizz Builder, where he worked for two years. As an Amazon VA, he managed various aspects of e-commerce operations, including product listings, inventory management, and customer service. His comprehensive understanding of the Amazon marketplace and his strategic approach to optimizing listings and managing seller accounts contributed significantly to the growth and success of E-com Bizz Builder. Sardar's ability to handle multiple tasks efficiently and his proactive problem-solving skills were key factors in his effectiveness as a virtual assistant.

In addition to his technical skills, Sardar is also an accomplished graphic designer. His artistic talent and proficiency with design software enable him to create visually stunning graphics that enhance the aesthetic appeal of websites and marketing materials. His graphic design expertise complements his web development skills, allowing him to offer a complete package of digital solutions to his clients.

Sardar Toheed's educational background, combined with his diverse professional experience, positions him as a versatile and knowledgeable expert in the field of web design and e-commerce. His dedication to continuous learning and improvement ensures that he stays updated with the latest industry trends and technologies, further enhancing his ability to deliver top-notch services.

Mr. Sardar Toheed's proven track record in web design, e-commerce development, and virtual assistance highlights his capability to handle diverse digital projects with ease. His comprehensive skill set, combined with his dedication to excellence, makes him a valuable asset to any organization seeking to enhance their online presence and achieve their digital goals.
